

What activities did you do the whole day? Make a list of those activities and see when did you begin them? When did you finish them and how much time did you take in doing them?

This list is the time-table of our whole day work. Similarly, we can make the list of work done in a week, a month and a year. By looking at that time-table we can make out which work will we do on which day and at what time.

Similarly, railways also make the time-table to give the information about the timings of arrival and departure of the trains, their names, numbers and the stations which come on their route. Through this time-table we can get the information about the train number, its source station and destination station and its arrival and departure time. Given below is a time-table of Northern Railways.

New Delhi (Railway Time-table)
Delhi-Ghaziabad-Meerut-Saharanpur Route

Train No.	Train Name	Source	Destination	Arrival	Departure
54539	Passenger	Hazrat Nizamuddin	Ambala Cantt.	03.30	03.45
12017	Shatabdi	New Delhi	Dehradun	-	06.50
19565	Uttaranchal Express	Okha	Dehradun	10.40	11.00
14681	Express	New Delhi	Jalandhar City	-	14.45
12055	Janshatabdi	New Delhi	Dehradun	-	15.25
54411	Passenger	Rewari	Meerut Cantt.	17.45	18.15
54473	Passenger	Delhi	Saharanpur	18.33	18.35
12205	A.C. (S.F.)	New Delhi	Dehradun	-	23.55

Look :

- Every table has a title which gives the information about the rail routes. Like in this table the details of New Delhi railway stations on Delhi, Ghaziabad, Meerut, Saharanpur rail routes have been given.
- In the table first the train numbers and their names have been written.
- Information about source and destination stations (from where to where) has been written in the columns which are in the middle.
- We can know the arrival time from the fifth column.

- We can know departure time of the trains from the sixth column.
- What else can we know with the help of time-table ?

Do it yourself— Observe the above table and tell —

- Which train number is 12017 ?
- What is the source and destination of Uttaranchal Express ?
- Tell the departure time of the train number 12055 from New Delhi ?

Like Indian railways, states also have their road transport services. Like trains, buses also have their time-tables which contain all the necessary information. Look at the tables —

After reading this we come to know —

- Route of the buses going from one place to another— Table—1 Column: 2
- Departure time of the buses — Table— 1, Column : 3
- Distance from one place to another— Table—2, Column : 3
- Bus fare — Table—2 , Column : 4

The teacher may take some more time-tables and discuss them with students.

We have learnt

- To read and understand the bus and railways time-tables.
- To write our daily activities in the tabular form.

Exercise

1. Look at the railways time-table and answer the questions based on it —

Prayagraj Junction Prayagraj— Lucknow rail route

Train number	Name of the Train	Arrival
14512	Nauchandi Express	09:50
14116	Alld. Haridwar Express	05:00
14216	Ganga Gomti Express	22:15
14370	Triveni Express	20:35

- (a) Which route is the above table related to?.....
- (b) What is the train number of Ganga Gomti Express?.....
- (c) What is the arrival time of train number 14370 at Prayagraj?.....
- (d) Which train number is 14512?.....
2. Read the time-table of the bus given in the lesson and tell —
- (a) How many buses are there to travel from Lucknow to Kanpur?
- (b) At what times do the buses leave from Lucknow to Varanasi?.....
- (c) What is the distance from Kanpur to Lucknow?.....
- (d) What is the distance from Lucknow to Prayagraj?.....
- (e) What is the fare from Kanpur to Lucknow?.
