C-5.4 Correlates the existence of different patterns of livelihoods with different types of availability of resources and climate conditions.

Learning Outcomes :

1. Identifies livelihood with examples.
2. Differentiates between Urban and Rural livelihood.
3. Explains the difference between organised and unorganized livelihoods.

CHAPTER 7

OUR LIVELIHOOD

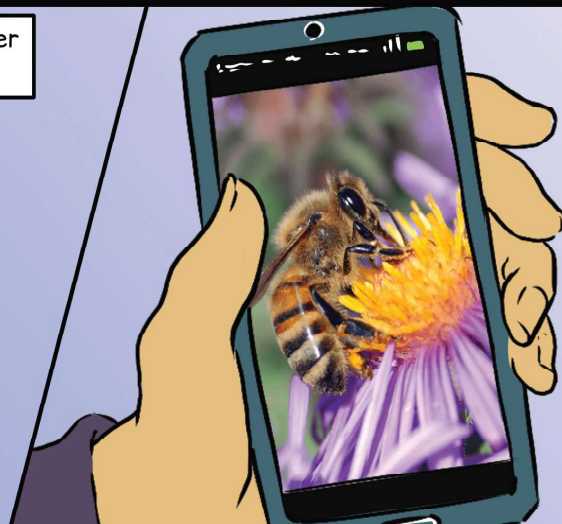

Here the teacher skilfully shows a picture of a flower and a bee sucking nectar, from her mobile phone.

Miss what is nectar?

Nectar is the sugary liquid produced by flowers. It is good for digestion, support the immune system, rich source of antioxidants.

Look children, urban livelihood is the various ways of people living in cities and towns to make a living.

My aunty lives in Nambol but she is a teacher.

Teacher, doctor, lawyer, manager, etc. can be both in rural and urban areas. But their numbers are few in rural areas

Majority of the people in urban areas are engaged in non-agricultural activities.

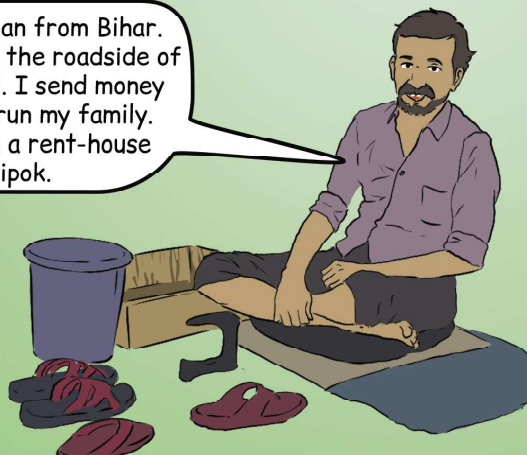

My name is Chaoba, and I live in a small rented house at Nagamapal. I am from Nambol. I came here to earn money for my family members who are in my village.

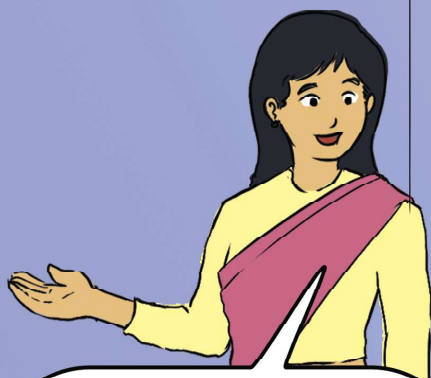

I'm Ratan from Uripok. I'm a graduate, unemployed. I'm a married man with two school going kids.

My name is Mohan from Bihar. Mostly I work at the roadside of Thangal Keithel. I send money back home to run my family. I'm residing in a rent-house at Uripok.

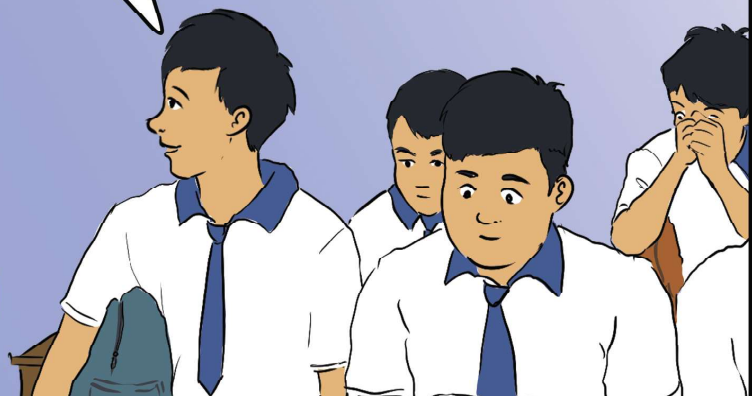

Such activities belong to unorganised livelihood.

Miss what is unorganised livelihood?

Jobs which are often temporary with no job security, low wages, poor working conditions e.g. street vendors, cobbler, domestic workers, etc.

Teacher again shows the picture of a teacher, a bank manager and a doctor.

I work in a bank.
The Bank takes care of
my family's medical expenditure,
childrens education. After my
retirement, I will be assured of
a handsome pension.

BANK MANAGER

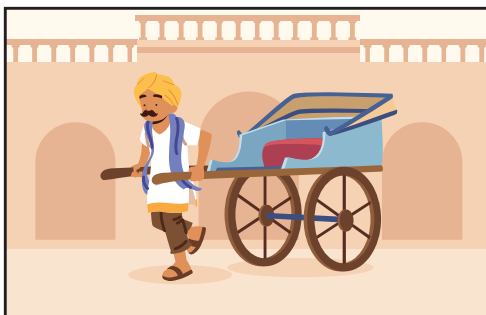

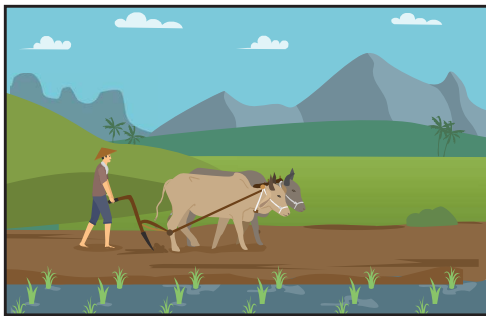

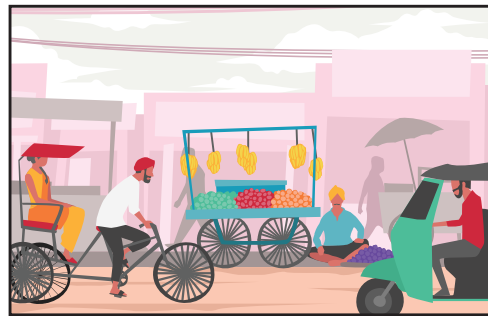

TEACHER

DOCTOR

Activity

A scene showing different livelihood (both Urban & Rural)

Identify two Urban and Rural Livelihood each from the pictures given above.
